

THE SOUNDS OF HALLOWEEN

All those sounds of Halloween give me such a fright
All those sounds of Halloween keep me up at night

Here comes the witch on her broom
Flying fast through the air
She settles down and sets the tempo
Laughin' out loud and strummin' the banjo
Watch out now, she'll cast a spell on you

Appearing next out of nowhere
There's a ghost in the air
Floatin' around with a clarinet
He's makin' a sound that you won't forget
Watch out now, he'll haunt you too

And when I hear those sounds
They make me shake and shiver
And still I try to sing along

All those sounds of Halloween give me such a fright
All those sounds of Halloween keep me up at night

Then suddenly there's a vampire
Revealing something in his hand
It's a violin that he plays real nice
But that melody, will make you pay the price
Watch out now, he'll make his mark on you

Out from the woods comes a werewolf
Emerging underneath the moon
Charging in, with his clothes all torn
Howlin' loud with his shiny horn
Watch out now, that sound might get to you

And when I hear those sounds
They make me shake and shiver
And still I try to sing along

All those sounds of Halloween give me such a fright
All those sounds of Halloween keep me up at night

And when I hear those sounds
They make me shake and shiver
And still I try to sing along
